ABOUT ME

I develop PowerBI/Tableau-like Data Analysis and Visualization platforms using Python. They allow users to interact with the data and apply filters in real time to get the analysis that best suits their needs. I love to work with SQL databases, structuring the data in order to optimize its storage and subsequent access.

EDUCATION

University of Barcelona, 2019

Master's degree in Astrophysics

University of Barcelona, 2017

Bachelor's degree in Physics

SKILLS

Hard Skills:

- Data Analysis
- Data Visualization
- Reporting
- SQL Querying

Tools and Software:

- Python (Pandas, Numpy, Streamlit, Plotly)
- SQL
- Tableau
- PowerBI

Languages:

- Spanish (Native)
- Catalan (Native)
- English (B2)

Others:

- Github
- Scrum/Agile
